

8 FEB 1970

**The Honorable Robert L. Kunzig
Administrator
General Services Administration
Washington, D. C. 20405**

Dear Mr. Kunzig:

This is in response to your letter of 21 January to Mr. Helms requesting us to commit a specific dollar amount to the Minority Business Program.

Most of our administrative and operative supplies are obtained through the General Services Administration and the Department of Defense. To provide a dollar target for these supplies would obviously duplicate goals established by GSA and the Department of Defense. A good deal of procurement which we undertake directly is in fulfillment of highly sensitive requirements and does not lend itself to this kind of categorization and public reporting.

We look forward to receiving the list of eligible sources and available commodities from the Small Business Administration and intend to make full use of it. You may be assured that we are in full support of the President's program and anticipate no serious problem in meeting the target suggested by the Small Business Administration's formula.

Sincerely,

/s/ L. K. White
